

MATHENY & CLARK  
**Arboriculture**

SEMINAR

**Thursday 26th November 2009**

'Leonda By The Yarra' 2 Wallen Rd Hawthorn

- Q.** Are you involved in the management of trees in urban areas?
- Q.** Do you deal with trees on development sites or tree risk management?
- Q.** Do aspects of plant health, sustainable urban forests or the way we use water in our landscapes concern you?

**A.** *Go to Matheny & Clark Arboriculture seminar!*

Guest speakers, **Nelda Matheny** and **James Clark**, are international leaders in arboriculture and urban forestry and have a continuing commitment to its professional development. They have authored over 80 publications that are widely used by arborists and horticulturists throughout the world.

Topics covered will include tree preservation, risk management and directions in urban forest sustainability encompassing issues on water management. The day will also comprise a practical, in-field tree assessment exercise that will help develop practical skills. Don't miss this great opportunity to enhance your arboricultural knowledge.
